Dr. Chad, Dr. Stephanie, and all the staff at CRAH,
Paige and I wanted to thank you for all the care and love you give our boys. There is not enough time and words to express how each one of you has impacted our lives. We came to CRAH honestly by chance, but we know that divine intervention was in place and that our path was being directed into the right direction. Paige and I face challenges every day just being who we are, we face discrimination and prejudice that most people never know in their life time. When we met it took no time to know that we were meant to be together, I came with a package deal though and that was the boys! Paige had dogs growing up but never the bundle of energy that Bailey and Toby are. She was never hesitant though but we knew that we were face with the difficult task of finding the right vet that would understand our "unique" family. Little did we know that each of you would become a member of our family. Simply, we love each of you and are so thankful that we have you! Bailey and Toby are at "home" when we come there and really love you. We talk about you all the time and the boys definitely know who you are! Again, thank you so much for everything you do and for loving our boys as much as we do!
